Farmers Union at New Prospect.

We, the farmers of the Farmers
Union at New Prospect Local, Ma-
rion county, Texas, beg to be ex-
cused from signing pledges outside
of our union. In the first place we
are already organized and being
organized we are better calculated
to do our work through our union.
We are in the right position to
know the needs of our farmers, and
we don't propose to do our work
only save through the union, and
if non-union people expect us to
work with them they need to be-
long to the union. We think it is
alright for non-union people to
pledge themselves to decrease their
acreage in cotton, and they may
rest assured that the union will do
their share of the work, but we
will do our part in the union. We
hope the mass meetings held in
various places will do much good.
We are heartily in sympathy with
the movement, but we are under
obligations to keep the secrets of
our meetings a secret. We, as un-
ion farmers, only contend for our
rights, and we are not trying to do
any injustice to any other class of
people, and we think we are in the
right channel and when we pledge
our selves it will be through the
F. U. and C. U. of A.

Respectfully,

New Prospect Local No. 1838.
